

E-WELD 3™

High temperature anti-spatter solution

E-WELD 3 is a high performance anti-spatter solution that both cleans the workpiece and protects it from high energy spatter, eliminating an extra step in the welding process while avoiding costly rework. E-WELD 3 is often the preferred solution for use on stainless steel and aluminum alloys.

Features & Benefits:

- Protects work pieces and welding equipment against sticking weld spatter
- Water based formulation
- For MIG and TIG welding operations as well as laser cutting applications
- Formulated to prevent spatter adhesion for high temperature welding applications such as:
 - Stainless steel welding
 - Multiple pass welding
 - Thin sheet welding
 - Welding pre-heated work pieces
- Multifunctional product! Can also be used as a degreaser for pre-welding preparation.
- Contains corrosion inhibitors for temporary corrosion protection
- Versatile product, works equally wet or after the product is dry
- Excellent paint adhesion properties – no special cleaning required for post welding coating operations
- Compatible with aluminum, steel and stainless steel
- Non-flammable, solvent, mineral oil and silicone free
- Biodegradable
