

ADJUSTABLE WRENCH - CHROME VANADIUM - INDUSTRIAL BLACK PHOSPHATE - 18" LENGTH

Product # 711157 | Model # AWP-18B

- Chrome Vanadium steel wrenches with black phosphate finish for use in applications where plated products are prohibited
- No chrome plate to peel or chip, causing contamination in sensitive applications
- Finish is non-reflective for military applications
- Black phosphate provides superior corrosion resistance versus black oxide finishes
- Smaller 15° jaw angle provides greater leverage than standard 22° wrenches, reducing hand and arm fatigue
