### KEYED DIFFERENT (KD)

Each lock is opened by its own unique key. Keyed Different is the standard keying default option.

### KEYED ALIKE (KA)

All locks in the set are opened by the same key. Keyed Alike locks eliminate the need for multiple keys where numerous locks are used.

### MASTER KEYED (MK)

In a Master Keyed system, a master key opens all the locks in the system, although each lock has its own unique key. Master Keyed systems allow supervisory or emergency access.
