

DAY & NIGHT® RESIDENTIAL HEATING & COOLING PRODUCTS

PRODUCT AT-A-GLANCE FOLDOUT

**NO HASSLE
REPLACEMENT™**
LIMITED WARRANTY
SEE WARRANTY CERTIFICATE FOR DETAILS

No Hassle Replacement™ limited warranty:

Your huge competitive advantage

When you're talking to a homeowner about a new heating and cooling system, you have a huge advantage over most competitors—the Day & Night® No Hassle Replacement™ limited warranty. Make the most of every sales opportunity by making sure you understand this important warranty and how to use it to get the sale. Here are the basics:

How does it work?

The No Hassle Replacement limited warranty offers a one-time new equivalent replacement unit should the compressor, covered outdoor coil or heat exchanger fail due to defect during the No Hassle Replacement period. The No Hassle Replacement limited warranty applies to mainline products and varies in length of limited coverage—up to 10 years to the original purchaser.

What does that mean to your customers?

Simply this: If a covered major component fails during the No Hassle Replacement limited warranty period, the customer has the option to:

1. Replace the unit.
2. Repair the unit.

It's a powerful selling tool that offers homeowners peace of mind. Use this superior warranty to build value in the products you sell. Mention it on every sales call.

How do you use it to close the sale?

Follow these three steps:

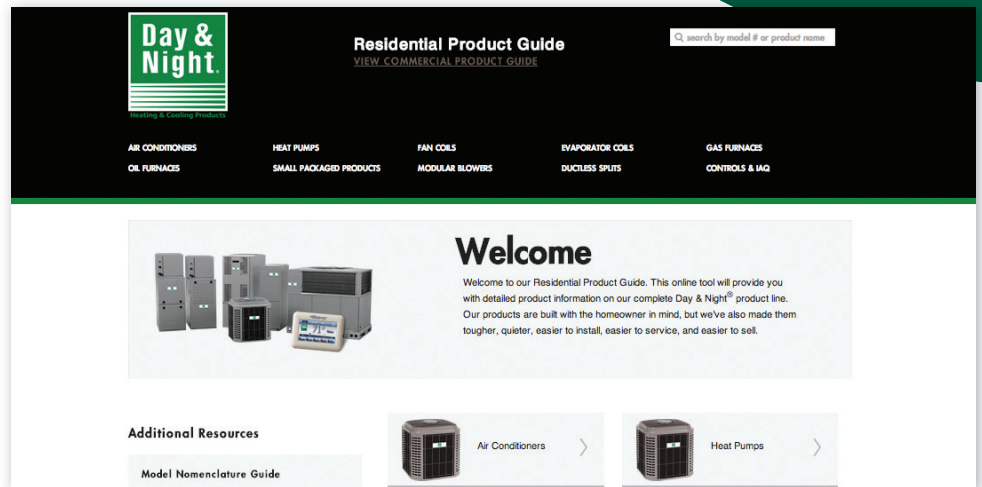

1. **Advertise it.** Include the No Hassle Replacement limited warranty in all of your ads, on your website, and in every marketing tool you use. Check the "Business Building Tools" section of the Dealer Resource Center at www.GoDay&Night.com to find ads that mention the warranty and graphics to help you promote it.
2. **Mention it.** Tell EVERY customer about the No Hassle Replacement limited warranty and explain how it works.
3. **Offer it.** Always offer at least one product covered by the No Hassle Replacement limited warranty. There are plenty of covered products available. All Day & Night mainline products include a No Hassle Replacement limited warranty.

Read the warranty certificate for details. Make sure you understand this important warranty before your next sales call. This warranty offers extra coverage in addition to the standard product limited warranty. Restrictions apply. See the most current and complete warranty certificate for further details.

COMPREHENSIVE ONLINE PRODUCT GUIDES!

With these online Product Guides, it's easy to access detailed information about the complete line of Day & Night® products via the Internet on your laptop, tablet or smartphone. Plus, if you need a hard copy of the product catalog, you can always download a pdf version and print it yourself.

Access Instructions:

- Go to www.GoDay&Night.com.
- Click on "Product Information" at the top of the screen.
- Scroll down to "Residential Product Guide" or "Commercial Product Guide" and you're there.

Or... Scan this QR code with your smartphone.

These online Product Guides include:

Photos and Specifications for the complete product line, including air conditioners, heat pumps, oil furnaces, small packaged products, fan coils, modular blowers, evaporator coils, ductless splits, gas furnaces, controls and IAQ (indoor air quality) products. Just click on a product category to view all of the models within that category.

Comprehensive Details.

Then, you can click on a specific model to view more comprehensive details, including:

- Product features
- Efficiency ratings
- Capacities
- Warranty information
- Unit performance data
- Accessories
- Certifications

CHECK IT OUT!

See the online Product Guides as soon as you get a chance. These online product databases have an easy-to-use interface with the most up-to-date information on all the Day & Night residential and commercial products and accessories. Plus, the Guides are simple to access via the Internet and your laptop, tablet or smartphone when you are on the go.

It's Easier to Find Split-System Matches... with Our Online Database!

The process of matching split systems can be time-consuming and lead to information overload. Now you can search for Day & Night® equipment **using our online database for split system air conditioning and heat pump combination ratings.**

How to find it: Look on www.GoDay&Night.com under Product Information.

It's Easy to Use!

Specific to Day & Night systems, the database incorporates these **user-friendly features:**

- Drop-down lists showing all model numbers, so there's no need to type in part of a model number
- Option to specify indoor (coil) model, or search all indoor models
- Option to specify furnace model, or search all furnaces
- Option to search with a minimum SEER
- Export an **unlimited** number results to an Excel file for even easier sorting and comparing
- Retained history from February 2013 going forward, i.e. combinations that are "archived" in the AHRI database stay visible
- AHRI reference numbers are included for every combination

The database pulls data directly from AHRI but simplifies the user interface and makes it easier to find what you're looking for. When a given model is no longer in production, the combinations are still retained in the database. If you have New Old Stock—new (unused) equipment that's been in inventory so long that AHRI has dropped the combination—this new database makes it easy to find.

Best of all, using the database allows you to make the results as broad or as narrow as you wish and makes it easy to drill-down on the specific equipment you're looking for without wading through every brand in the industry.

DUCTLESS SYSTEMS

A High Wall Single Zone System Heat Pump with Basepan Heater

- Variable Speed (Inverter) Compressor
- Up to 30.5 SEER
- 10.3 HSPF
- Sizes: 09 to 18
- 3 systems are ENERGY STAR® certified
- Operating ranges:
 - Cooling 0° ~ 129° F (-18° ~ 54° C)
 - Heating -22° ~ 75° F (-30° ~ 24° C)

Limited Warranty:**
- Parts & compressor
- 10 yrs.

B Multi-Zone System Heat Pump with Basepan Heater

- Variable Speed (Inverter) Compressor
- Up to 22.0 SEER
- Up to 10.2 HSPF
- Sizes: 18 to 56
- Connect 2 ~ 9 indoor units
- Operating ranges:
 - Cooling 0° ~ 118° F (-18° ~ 48° C)
 - Heating 5° ~ 75° F (-15° ~ 24° C)

C High Wall Single Zone System Cooling Only, Heat Pump with Basepan Heater

- Variable Speed (Inverter) Compressor
- Up to 23.0 SEER
- Up to 10.0 HSPF
- Sizes: 09 to 36
- 12 systems are ENERGY STAR® certified
- Operating ranges:
 - Cooling 0° ~ 115° F (-18° ~ 46° C)
 - Heating 0° ~ 75° F (-18° ~ 24° C)

D High Wall Single Zone System Cooling Only, Heat Pump with Basepan Heater

- Variable Speed (Inverter) Compressor
- 16.0 SEER
- Up to 9.0 HSPF
- Sizes: 09 to 24
- Operating ranges:
 - Cooling 0° ~ 115° F (-18° ~ 46° C)
 - Heating 0° ~ 75° F (-18° ~ 24° C)
