

FilterLock

FilterLock by AllergyZone utilizes a magnetic cover to seal your furnace or air conditioning system providing protection and reducing energy. The FilterLock is placed over the filter slot (or any seams in metal ductwork) to eliminate the entry of unfiltered air into your forced air system. It works to eliminate leaks in your system, decreasing your energy use. Sealing your air filter slot will keep contaminants out of your duct work by physically blocking allergens and dust from entering the system.

- Seals furnace and air conditioning air filter slots
- Eliminate leaks to help reduce utility bills and save energy
- Improve indoor air quality by blocking allergens and dust from entering your duct work
- Easy to install and take off by magnetically attaching to metal ducts
- Universal fit for 1 inch filter slot: includes 2 FilterLock seals: dimensions: 4-3/4" wide and 25" inch long
