

# ADJUSTABLE WRENCH - CHROME VANADIUM - INDUSTRIAL BLACK PHOSPHATE - 24" LENGTH

Product # 711159 | Model # AWP-24B

- Chrome Vanadium steel wrenches with black phosphate finish for use in applications where plated products are prohibited
- No chrome plate to peel or chip, causing contamination in sensitive applications
- Finish is non-reflective for military applications
- Black phosphate provides superior corrosion resistance versus black oxide finishes
- Smaller 15° jaw angle provides greater leverage than standard 22° wrenches, reducing hand and arm fatigue

## TECHNICAL SPECIFICATIONS

Length	24" (600 mm)
Opening	2-3/4"
Material	CrV
