

# ADJUSTABLE WRENCH - CHROME VANADIUM - INDUSTRIAL BLACK PHOSPHATE - 10" LENGTH

Product # 711154 | Model # AWP-10B

- Chrome Vanadium steel wrenches with black phosphate finish for use in applications where plated products are prohibited
- No chrome plate to peel or chip, causing contamination in sensitive applications
- Finish is non-reflective for military applications
- Black phosphate provides superior corrosion resistance versus black oxide finishes
- Smaller 15° jaw angle provides greater leverage than standard 22° wrenches, reducing hand and arm fatigue

## TECHNICAL SPECIFICATIONS

|          |              |
|----------|--------------|
| Length   | 10" (250 mm) |
| Opening  | 1-5/16"      |
| Material | CrV          |
