

BSX® Premium Pigskin & Cowhide MIG Glove

A value-rich combination of dexterity and durability

The BSX® MIG welding glove features a price-conscious combination of premium grain pigskin with a cowhide back. This glove is the first to introduce our exclusive RestPatch®; a padded patch on the cuff of the glove to reduce pressure on the wrist and wrist bone during sustained welding. Other features of the BM88 include a fully lined padded palm, Kevlar® stitching, and Black Stallion's exclusive DragPatch®. What makes this glove stand out against the other MIG gloves is that the index finger and thumb are constructed of fine grain pigskin. This allows for a secondary use as a more durable TIG glove.

ITEM NUMBER

BM88

SIZE

S, M, L, XL, 2XL, 3XL

SPECIFICATIONS
